

Who Else Wants A Free Chiropractic Consultation?

To: Patients and Friends

From: Dr Roger Smith
16052 Beach Blvd. Suite 130
Huntington Beach, CA 92647

Dear Patients and Friends,

If you suffer with back pain, neck pain, headaches, fibromyalgia or asthma and would like a completely free Upper Cervical Chiropractic consultation to see if we can help you – you are going to love this.

But first, you have to read this quick, true story that explains exactly why we are giving an office visit to you for free.

Here's the story:

One of the world's leading news sources, Reuters, recently ran a story about a very interesting 80-year-old widow who lives in India.

What's so interesting about this woman?

Her name is Phuljharia Kunar and she just spent \$37,500 of her own money on a two-day feast for people in surrounding villages. It was estimated she fed around 100,000 people during those two days.

Why Would She Do Such A Wonderful Thing?

According to the Reuters story, Kunwar wants to go to heaven. She has no family or relatives to leave her money of property to... so... she had this feast in the hopes it would help open Heaven's gates for her.

Here's a quote from the Reuters article: "She told us she could now begin her final journey and her soul could rest in peace in heaven," said a local lawmaker who attended the feast.

What does all this have to do with you getting a Chiropractic consultation?

It's simple: We all should give back more and not just when we are getting on in years and worried about what happens after we die. We should give back simply because it is the right thing to do.

That's why we are offering you a free consultation to see if we can help you. We don't want you to suffer another day in pain if we can help it... and... we don't want money to be a deterrent to you getting the help you need.

Sure, this is not on the level of Kunwar's \$37,500 two-day feast but, if you are in pain... it can mean just as much to you.

So, if you suffer with pain, fibromyalgia or asthma just give us a call at 714-848-8122. When Wendy answers the phone, tell her you read the story about the two day feast and you want your free consultation. She will know exactly what you are talking about and will schedule you for our next available time.

And your consultation we will be able to discuss your problem and see if it may be a Chiropractic case or not. You will be able to get all your questions answered and concerns addressed and possibly find the solution.

But you must do this right now because this offer is only good until July 31, 2008. After that, the free feast is over!!!

So, call 714-848-8122 right now and schedule your free consultation.

Sincerely,

Dr. Roger Smith

P.S. I don't know if Kunwar's feast is going to get her into heaven... but I do know this: If you act fast enough, you can get a free consultation to find out if we can possibly help you. And there are absolutely no strings attached. Call 714-848-8122 right now.
